ABOUT ME

I am a passionate and versatile Python Developer with a strong foundation in backend development, AI/LLM integration, and cloud deployment. Since transitioning to Python development, I have successfully worked on a wide range of projects, honing my skills and mastering modern tools and frameworks. My expertise spans across Python, Flask, and various AI technologies, enabling me to deliver high-quality solutions tailored to the specific needs of clients.

TECHNICAL SKILLS

Programming Languages: Python (Django, Flask), JavaScript, R
Databases: SQL (PostgreSQL, SQLite), NoSQL (MongoDB, TinyDB)

Cloud Platforms: SAP BTP, Neon Tech
Other: Git, Docker, Cloud Foundry, Bash

EXPERIENCE

Web Application Development

Full-Stack Developer, [Spanish Language School](#)

Remote • May 2024 - October 2024

- **Backend:** Implemented all business logic using Python 3.10 and Flask 3.0.2.
- **Database:** TinyDB 4.8.0 due to the small amount of data to store.
- **Frontend:** Used the Jinja2 HTML template engine and CSS for styling.

Web Development Internships

Web Development Intern, [REDBIRD](#) | Web Development Intern, [IzmirWebStudio](#)

Remote • Jun 2023 - Sep 2023 | Türkiye, Hybrid • Nov 2022 - Apr 2023

- **Bug Fixing:** Identified and fixed minor bugs and issues in the final layout.
- **Database Management:** Created and optimized database queries, utilizing PostgreSQL.
- **Testing:** Wrote and executed unit tests to ensure code quality.
- **Documentation:** Maintained project documentation, writing instructions and descriptions.

IT Service Management

Head of IT Services, [MTS Bank PJSC](#) | Customer Service Supervisor, [Ricoh Rus](#)

Moscow City, Russia • Dec 2020 - Mar 2021 | Sep 2017 - Dec 2020

- **Team Leadership:** Coordinated a team of engineers and analytics to optimize service efficiency, fostering teamwork and effective communication.
- **Catalog and Documentation Enhancement:** Improved the accuracy and completeness of the IT services catalog. Authored comprehensive, user-friendly guides for stakeholders and customers, enhancing usability of available resources.
- **Data Visualization:** Developed and deployed Power BI dashboards for real-time monitoring and reporting on IT services, enabling proactive issue resolution and resource optimization.

Technical Support

End User Computing L2 Engineer, [JDE](#) | Helpdesk Engineer, [Mondelēz](#)

Moscow City, Russia • Jun 2016 - Sep 2017 | Apr 2014 - Jun 2016

- **Process Automation:** Implemented a remote purchase order printing service with Raspberry Pi, Ubuntu OS, Apache HTTP Server, PHP, MySQL, and Zebra printers, streamlining order processing.
- **Service Improvement:** Analyzed data and customer feedback to identify and resolve service issues.
- **Training and Development:** Conducted internal trainings and webinars to improve team knowledge and operational efficiency.

EDUCATION

Google Data Analytics by Google on Coursera. [Certificate](#) earned at November 8, 2023

Saratov State Technical University, Associate degree in [PR/Ad/Comms](#), 2014
